

cry20

viscotec
foodgrade without compromise

Main data

Crystallizing & drying	[kg/h]	1000/800
of inhouse regrind/pellets		
Pre-heating	[kg/h]	2000/1200/1000
of bottle flakes/pellets*/inhouse regrind		
Net volume	[m ³]	2
Installed power	[kVA]	125
Energy consumptions	[kWh/kg]	0,04 - 0,09
Output humidity	[ppm]	< 200**

* Crystalline pellets

** Depending on local relative humidity
(optional dehumidified air dryer)

- Low power consumption and maintenance
- Excellent dedusting
- Pellets and/or flakes processable
- Integration of 2-component mixing
- Intuitive and simple operation
